

# COVID-19 Services for You & Your Family

## Medication: Did you know there is medicine for COVID-19?

If you are 50 or older and have COVID-19 symptoms, you are considered a high-risk patient. There is no need to worry—our clinics have medicine available at no cost to you.

## Everything you need to stay COVID-free.

We understand that the health of you and your family is your number one priority. That is why we offer all members of our BeverlyCare family free COVID-19 resources to keep you and your loved ones safe.

## Telehealth: Get help from the comfort of your home.

If think you have COVID-19, it is important to get help as soon as possible. We offer telehealth consultations to get you treatment without leaving your home.

## Vaccinations: Free vaccines help you stay safe.

COVID-19 shots are safe and they work. Our clinics offer free vaccines for all eligible ages, and appointments take less than 30 minutes.

## Testing: Get free testing kits.

If you think you were exposed to someone with COVID-19, our clinics offer in-person testing at our clinics and free self-test kits for you to take home with you. Each kit contains two tests: one for you and a loved one, or just an extra one in case you need it.

## COVID-19 symptoms:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

## Call 911 or go to the ER if you experience:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Pale, gray, or blue-colored skin, lips, or nail beds, depending on skin tone
